

Some ways primary schools are using volunteers to enrich the curriculum.

Primary Futures has a network of over 25,000 employee volunteers who can come into schools to help widen the horizons and aspirations of primary school children by helping them make the connections between their learning and their futures. To access the volunteers, schools can sign up for free at www.primaryfutures.org

This resource has been developed by primary school teachers to help other primary school teachers and staff think about new ways to use employee volunteers in the classroom, alongside the volunteers speaking about their jobs. The ideas listed below are suggestions and we hope that it will help schools to come up with new ways to use these exciting volunteers. We hope you can add to this list – please email enquiries@inspiringthefuture.org if you have anything to add.

Remember these volunteers are unpaid and have signed up for at least an hour a year to visit their local schools- they are a resource and are not trained to lead a lesson.

Themed days and events

Event	Dates	Suggested volunteer	How you could use the volunteer
World Book Day		<ul style="list-style-type: none"> • Journalist • Author • Book shops • Librarians • Museum Curators (Historical stories) • Theatre staff • Drama companies • People from different cultures / religions 	<ul style="list-style-type: none"> • Talking about writing and different genres. • Reading and sharing stories • How a library works and what does their job entail? • Jobs in different cultures • Putting on Performances (The Enormous Crocodile) • Favourite stories from different generations
